

What is claimed:

3 1. A novelty kit for providing decorative and disposable fashion wear for body  
parts that also protects the decorated body parts from abrasion, comprising:  
6 a) a flexible, trimmable pad having top and bottom surfaces; b) an adhesive  
material on said top surface for removably securing said pad to a body part; c)  
a decoration to be applied to said bottom surface; and d) a removable layer  
covering said adhesive material.

9 2. A method of decorating and protecting a body part comprising the steps of:  
12 a) furnishing a flexible pad having a top and bottom surface; b) providing an  
adhesive on said top surface and a peelable film to preserve said adhesive  
until used; c) providing decoration selected from at least one of the group  
15 comprising color, pattern, graphic design, text, advertising, relief design, and  
texture; d) trimming said pad to a desired shape to apply to at least one body  
part selected from the group comprising feet, hands, knees, and elbows, and  
18 parts thereof; e) peeling said film from said adhesive and applying said pad to  
a selected body part.

21 3. The invention of claim 1 further comprising a reusable adhesive.

24 4. The invention of claim 1 further comprising pre-formed, cupped pads for at  
least one of toes, knees, elbows, and animal pads.

27 5. The invention of claim 1 further comprising material selected from  
cushioning, magnetic material, and gel disposed in said pad between said top  
and bottom surfaces.

30 6. The invention of claim 1 further comprising the addition of a first layer of  
thistle cloth to at least a portion of said bottom layer and a protective shell  
having a second layer of thistle cloth to engage said first layer of thistle cloth  
and means for absorbing the shock of a blow to said shell.

33 7. The invention of claim 1 further comprising means for adapting said pad to  
apply to the feet of animal pets.

36 8. The invention of claim 2 further comprising a reusable adhesive.

39 9. The invention of claim 2 further comprising pre-formed, cupped pads for at  
least one of toes, knees, elbows and animal pads.

42 10. The invention of claim 2 further comprising material selected from  
cushioning, magnetic material, and gel disposed in said pad between said top  
and bottom surfaces.

45 11. The invention of claim 2 further comprising the addition of a first layer of  
thistle cloth to at least a portion of said bottom layer and a protective shell  
48 having a second layer of thistle cloth to engage said first layer of thistle cloth  
and means for absorbing the shock of a blow to said shell.

12. The invention of claim 2 further comprising means for adapting said pad to apply to the feet of animal pets.
